**Andela**  
Oct, 2023

### PROGRAMMING LANGUAGES & FRAMEWORKS

JavaScript & React.js

Node.js

Git & Github, and Sequelize ORM

Restful APIs

HTML , CSS , Tailwind CSS

### PROFILE

Motivated front-end developer with an emphasis on using technologies such as JavaScript, React, HTML, and CSS. adept at creating interfaces that are both interactive and easy to use. meticulous and passionate about remaining current with front-end frameworks and design trends. devoted to improving user experiences by using innovative and adaptable web design. Eager to collaborate with dynamic teams and contribute to the success of forward-thinking initiatives.

### WORK EXPERIENCE

#### Developer

TIIDELab, Abuja Nigeria

June, 2023 - December, 2023

- Designed and crafted an intuitive user interface for a dynamic career mentorship and job placement website, emphasizing a user-centric approach. Employed modern front-end technologies, such as React.js, to create an engaging and seamless user experience.
- Implemented best practices in front-end development, including responsive design principles and accessibility standards, to guarantee an inclusive and user-friendly platform.
- Actively participated in agile development methodologies, ensuring effective communication and collaboration within the cross-functional team. Worked closely with back-end developers to establish coherent data exchange and maintain a cohesive application architecture
- Designed and developed an efficient ERD, providing a comprehensive representation of a career mentorship and job placement website.
- Utilized Sequelize ORM to establish seamless connectivity with the MySQL database, ensuring optimal functionality for the application.
- Implemented the Node.js runtime environment to construct a robust and secure server-side for the application.
- Spearheaded the development of a secure backend infrastructure, ensuring the efficient management of user data and records.
- Integrated Paystack API seamlessly to enhance the app's functionality for subscription purposes.
- Led the backend team in collaboration with team members, ensuring the successful realization of project goals.
